How to Join a Clinical Trial

Cancer Details Checklist

Fill out this Cancer Details Checklist as completely as possible before you start looking for a clinical trial. It will help you know which clinical trials you may be eligible to join.

1. What kind of cancer do you have?
Write down the full medical name.

_____
_____
_____

2. Where did the cancer first start?
Many cancers spread to the bones, liver, or elsewhere. However, the type of cancer you have is determined by where it started. For example, breast cancer that spreads to the bone is still breast cancer.

_____
_____
_____

3. What is the cancer's cell type?
This information will be in your pathology report.

_____
_____
_____

4. If you have a solid tumor, what size is it?

_____
_____
_____

5. If you have a solid tumor, where is it located?
If the tumor has spread, list all locations.

_____
_____
_____

6. What is the stage of your cancer?
The stage describes the extent of cancer in the body and whether it has spread from the site where it started. There are different staging systems for different cancers.

_____
_____
_____

7. Have you had cancer before that is different from the one you have now?
If so, answer questions 1-6 for the other cancer, as well.

_____
_____
_____

8. What is your current performance status score?
This is an assessment by your doctor of how well you are able to perform ordinary tasks and carry out daily activities. Several different scoring methods can be used to describe performance status.

_____
_____
_____

9. Have you been treated for your current cancer? If not, what treatment(s) have been recommended to you?

_____
_____
_____

10. If you have been treated for your current cancer, please list the treatments you have received (for example: type of surgery, chemotherapy, immunotherapy, or radiation therapy).

_____
_____
_____

11. What are your bone marrow function test results?
These blood tests show whether your blood cell count is normal.

a) White blood cell count:

_____
_____

b) Platelet count:

_____
_____

c) Hemoglobin/hematocrit:

_____

_____

12. What are your liver function test results?

a) Bilirubin:

_____

_____

b) Transaminases:

_____

_____
